Parent and Caregiver Information for Aquatic Therapy

Welcome to Pool Therapy! Bothell Pediatric and Hand Therapy wants your child's experience in the pool to be a positive and safe one. If you have any questions, please don't hesitate to ask your therapist.

- 1. NO DISPOSABLE DIAPERS!** Children who are not potty trained or are incontinent, reusable swim diaper with snug fitting plastic pant is required. They are often made of cloth with an internal plastic lining. Disposable swim diaper may also be used. They must be snug around the legs and waist so as to not allow any leakage.
- 2. Aqua socks are required whether they can touch the bottom of pool or not.**
- 3. Your child should not use the pool if he or she has:**
 - been vomiting or has had diarrhea within 24 hours of his/her appointment
 - a contagious illness
 - open sores

Please call the clinic to let us know your child is sick and we will attempt to reschedule him/her for a clinic visit, if appropriate.

- 4. As a parent or caregiver, you will need to stay during your child's therapy visit unless other arrangements have been made. In the unlikely event of an emergency, you will be the one to call for help, while the therapist responds to the emergency situation.**
- 5. Please understand the therapy in the pool is still treatment time. Siblings are not allowed in the water.**

I understand and agree to all of the above.
